## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-4 and 6-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites among other features a selection circuit electrically connected to the input circuits that identifies which one of the projections is being pressed the hardest, including when two or more of the projections are pressed simultaneously and input control means, electrically connected to the selection circuit, that encodes a unique electronic representation of each projection identified by the selection circuit.

Lu (US 6,995,752) discloses detecting simultaneous multiple touches according measuring pressure and location. However, Lu does not disclose encoding a unique electronic representation to the location with the greatest pressure being applied.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
